Available in Bulk Wholesale Sizes up to 1000kg from stock

NATURALLYTHINKING FACE WASH BASE, SMOOTH SILKY AND GLOWING SKIN, USE ALONE ON SENSITIVE SKIN OR TAILOR WITH THE ADDITION OF OILS

Experience the indulgence of our silky smooth face wash as it glides over your skin on application, instantly bringing a smooth and silky feel and a vibrant glow. Face Wash is a real favourite with all of our customers because it is just so indulgent and effective.

Many people just use shower gel on their face, however the face is a sensitive area and shower gel can just be a little too 'industrial' for the facial areas. Naturallythinking face wash is made to gently wash and restore, so that your face is left feeling silky smooth and naturally cleansed.

SKIN SUITABILITY

Effective for all skin types, can be tailored with the addition of essential oils.

APPLICATION DIRECTIONS

Gently wet your face with clean warm water, then take a single pump of face wash (around a pea size amount) and gently lather across the face, letting the silky texture of the face wash moisturise and cleanse at once. Rinse with clean warm water.

DIRECTIONS FOR BLENDING

Blend with essential oils at a maximum of 2.5%, you shouldn't use anymore than this on facial areas, due to the more sensitive nature of the skin.

Carrier Oils should be added with care, to avoid leaving a greasy feel to the skin. The addition of Naturallythinking Plant Actives and Extracts can enhance softness, skin feel and purpose.

Fragrance oils (as opposed to essential oils) can also be used in our bases, although as we only use natural essential oils we do not sell synthetic Fragrance Oils.
